DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 - 4, drawn to a power system with a breaker manager, classified in class 307, subclass 125.
 - II. Claims 5, drawn to a power system with impedance control, classified in class 307, subclass 98.
 - III. Claims 6 - 8, drawn to a circuit breaker system, classified in class 361, subclass 636.
 - IV. Claim 9, drawn to method of controlling plural power sources, classified in class 307, subclass 44.
 - V. Claim 10, drawn to a ripple tolerant power source, classified in class 307, subclass 82.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I - V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions disclose various systems related to power distribution with different fields of invention.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Vernon Maine on 3/20/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Art Unit: 2836

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
